Name

First Name

Last Name

Email Address

This email address will be used for all communications regarding the Ocular Photography Contest. Please verify this information is correct before continuing.

Terms of Participation

By submitting this form, I grant a permanent non-exclusive license to the American Academy of Optometry to use the image(s) submitted. You **MUST** accept the terms in order to participate in the Ocular Photography Contest.

- Agree
- Do Not Agree (You cannot continue this submission)

Degree/Credential Requirements

Only **optometrists** (or those with equivalent credentials if practicing outside of the United States) may be designated as the primary designee. This is the person who is to receive the prize if selected as a winner. (You may acknowledge other doctors, students, or ocular photographers who assisted later during the submission process.)

Primary Designee

Does the primary designee have a Doctor of Optometry (OD) or equivalent degree?

- Yes
- No (You cannot continue this submission)

Credentials

Please list the credentials of the primary designee (example: OD, FAAO)

Practice Name

Enter practice name, or academic affiliation (do not use abbreviations)

City

City of primary designee's practice

State/Province

State/Province of primary designee's practice

Country

Country of primary designee's practice

Additional Acknowledgement

Please list any additional doctors, students, or photographers you would like to acknowledge. Please include the credentials of any acknowledgements as well (Example: John Smith, OD; Jane Smith, ocular photographer; John Smith, COA; Jane Smith, optometry student, etc.) Enter N/A if there are no additional acknowledgements.

Additional Information**Image System**

Name of image system used to capture submitted image(s). Be specific (i.e. Zeiss Visucam Pro, Kowa Nonmyd Wx3D fundus camera, Coburn HS 5000 slit lamp with iPhone XR attachment, ext). Simply stating "fundus camera" is not acceptable. If using an iPhone, indicate which model was used. If the iPhone was used to image through slit lamp oculars, indicate the slit lamp model as well.

Diagnosis

Enter the case diagnosis (to be used as the photo caption). Use a single word or short phrase only. No case info, no sentences.

Description

Brief description of case (limit to 3 sentences or less)

Photos, captions, and case descriptions **must not include any identifying information**. This includes: practice name, physician name, patient name, date of birth, date of service, etc. No images with identifying facial features will be accepted.

Upload Images

- The photo file name may not include any identifying information (including doctor, practice, or patient name).
- The images must remain in a non-modified manner, i.e. no enhancements by either proprietary software from which the image was captured, or by programs such as Adobe Photoshop™. No 35 mm slides, photographic prints, or neuro-imaging studies will be accepted.
- At least one image must include an intact ocular structure from a human eye. For example, images of a foreign body after removal with no accompanying ocular photos will not be accepted.
- Corneal topography, anterior or posterior OCT, HRT, GDx, or B-scan ultrasound images may be submitted as supporting images only, and can no longer be stand-alone images in this contest. They must be accompanied by an ocular photo as described above.
- Only 4 images per entry/case will be allowed. Multiple images, either sequential in time (as in a fluorescein angiogram), or using different technologies to image the same entity (as in a color photo and fluorescein angiography), or to fully appreciate the size of the entity may also be submitted, but will be limited to four images total per contest entry.
- We reserve the right to make small alterations to winning submissions, including but not limited to photo caption and case description, for the purpose of clarity and aesthetics during display and publication.

Image One

Upload your image as a PNG, JPG, JPEG, or GIF only. File size limit is 25 MB.

Your file name may not contain identifying information. Do not use your name, clinic name, or patient name as your file name.
